judaportfolio.vercel.app (my portfolio)

Seeking to leverage my attention to detail and strong user-centric design skills to alleviate usability issues and improve interface consistency as a Front-End Developer. I'm excited about the opportunity to deepen my understanding of end-users' challenges within the tech industry.

## Work experience

**Fan iq**| Front-End Developer *06.2025 - 02.2026*

- Designed multiple game modes that increased users by over 500%
- Enhanced user engagement by implementing custom UI animations—including scroll-activated reveals, flip interactions, and smooth layout transitions—using **Framer Motion**.
- Leveraged **Next.js** routing and rendering capabilities to build a highly performant and scalable application foundation.
- Built dynamic user profile dashboards connected to backend REST APIs, allowing users to securely update and manage their account details.
- Built and stylized dynamic, mobile-first interfaces using **Tailwind CSS**, ensuring cross-device compatibility and clean design patterns.

**King-Jesus Collections**| Front-End Developer *Port-Harcourt, Rivers State | 03.2024 - 05.2025*

- Designed and implemented user-friendly web interfaces for both administrators and clients, improving usability and engagement
- Created visually impactful interfaces to transform raw data into actionable information using ReactJs and CSS
- Decreased cart abandonments by 12% which increased online sales by 32% in 2024

**Shuttle9ja |** Front-End Lead *Illishan-Remo, Ogun State | 10.2022 - 07-2023*

- Managed entire front-end implementation as well as trained prospective front-end interns
- Worked on implementing Responsive design as well as performance optimizations throughout the web-app
- Implemented real-time dynamic seat availability for shuttles

**ChristiesLabs**| Software Engineering Intern *Port-Harcourt, Rivers State | 01.2022 - 06.2022*

- Scraped important new information for an inhouse blog during the Russian/Ukrainian crisis
- Implemented a user-friendly landing page to draw and retain customer attention

## Education

**Babcock University |** Software Engineering (B.Sc.) *Illishan-Remo, Ogun State | 09.2019 - 07.2023*

Graduated in the top 15% of the class (Second Class Upper Division).
Developed a University Management System mobile app for streamlining student registration
Active member of the Babcock University Computer Club.

## Skills

Effective communication • Active listening • React.js • TypeScript • Redux • Axios • UI/UX Implementation • Postman • Node.js • Frontend Performance Optimization • Notion • Framer Motion• Tailwind CSS • JavaScript (ES6+) • State Management (Context API, Redux & Zustand) • Git & GitHub • Vite & Webpack • Responsive Web Design • Web Sockets| ■ *All professional proficiency*

**Projects**

---

- **Viridis**: Developed a dynamic web application featuring a complete e-commerce checkout flow, integrating a custom shopping cart with local storage persistence and real-time backend synchronization
- **fan iq**: Developed full-featured real time P2P game trivia modes using Web Sockets.
